Rafael Mandel

Software Engineer

Linkedin: [/rafael-mandel](#)   **GitHub**: [/rflMandell](#)   **Email**: rflmandelcr@hotmail.com

Resume: [rflmandel.com](#)   **Phone: +55 (71) 99623-3756**

I have a background in the publishing market, where I honed organizational skills, attention to detail, and critical thinking, while also gaining experience in project management and economic development. As I transitioned into software engineering, I focused on Python development and system implementation, building a solid foundation in tech.

TECHNOLOGIES

Python
Django
Oracle SQL
JavaScript
NodeJs
React
Git / GitHub

EXPERIENCE

Python Developer, Sao Paulo - Brazil
August 2024 - Present

Project: Personal Expense Tracker ([link](#))
- A simple command-line Personal Expense Tracker built with Python and SQLite. This project allows users to manage their financial transactions by adding incomes and expenses, viewing their current balance, filtering transactions by date, and exporting data to a CSV file.
  - Tecnologias: **Python 3**, **SQLite3, CSV**

Project: Task Manager ([link](#))
- This is a simple terminal-based task manager that allows you to add, list, complete, and remove tasks. The project uses Python and SQLite3 to store data persistently.
  - Tecnologias: **Python 3**, **SQLite3**
