

RAFAEL MANDEL

PYTHON DEVELOPER

PERSONAL PROFILE

I have worked in the publishing market, developing organizational skills, attention to detail, and critical analysis. During my transition to the technology field, I deepened my knowledge in software development with Python and system implementation. Currently, I am gaining experience with **Python**, **Oracle SQL**, and **BI** to optimize processes, automate tasks, and develop efficient solutions.

EXPERIENCE

Freelancer, Sao Paulo - Brazil

Python Developer

August 2024 - Present

Projeto: projeto a colocar ([link do projeto](#))

- This code implements a product management system using SQLite, allowing users to search, register, and update products, as well as handle checkout processes. It offers different options based on the user role.
- Tecnologias: **Python 3**, **SQLite3**
